01 · FOUNDATIONS

Color

A blue-led palette with one warm accent. Blue carries structure and action, amber marks emphasis and hover, sky tints large surfaces, and the page itself stays a soft light grey so white cards lift off it.

BRAND CORE

Aa

University Blue

`--color-16 · #16437D`

Primary. Table headers, solid buttons, quote headings, link hover, end of the footer gradient.

Aa

Amber

`--color-fc · #FCA700`

Accent. Header top bar, button hover fill, large display numerals. Always paired with black text.

Aa

Sky

`--color-a2 · #A2DAF7`

Secondary tint. Full-width section backgrounds and the fade on inactive slides.

NEUTRALS

White

`--color-white · #FFFFFF`

Cards, table body, tiles, icon buttons.

Page

`--color-f5 · #F5F5F5`

Body and header background.

Black

`--color-black · #000000`

Headings, body copy, nav links.

Grey 70

`--color-70 · #707070`

Hairlines at 30 to 50% alpha. Secondary text.

Grey 9A

`--color-9a · #9A9A9A`

Meta labels on dark footer only.

Grey EE

`--color-ee · #EEEEEE`

Defined. Subtle fills and dividers.

Grey F8

`--color-f8 · #F8F8F8`

Defined. Alternate row or panel fill.

Grey F6

`--color-f6 · #F6F6F6`

Defined. Input and form fill.

Stone

`--color-e2 · #E2E3DE`

Defined. Warm section background.

Grey D8

`--color-d8 · #D8D8D8`

Defined. Borders and disabled fills.

02 · FOUNDATIONS

Typography

Oswald sets the voice, DM Sans does the reading, Instrument Sans labels. Sizes are written in rem against a root that tracks viewport width, so every value below is the size at a 1920px screen.

TYPEFACES

Aa

Oswald

`--oswald · 300, 400, 700`

Display and headings h1 to h6, pull quotes, large numerals.

Aa

DM Sans

`--dmsans · 400, 500, 600, 700, 900`

Body text, navigation, buttons, tables, footer.

Aa

Instrument Sans

`--instrument · 400, 700`

Section eyebrows and image captions.

BASE SCALE

h1 · --font-72 Oswald 400 · 72 / 1	Quality Assurance
h2 · --font-42 Oswald 400 · 42 / 1.42	Quality Assurance
h3 · --font-30 Oswald 300 · 30 / 1.2	Quality Assurance
h4 · --font-24 Oswald 300 · 24 / 1.41	Quality Assurance
h5 · --font-21 Oswald 700 · 21 / 1.14	**Quality Assurance**
h6 · --font-18 Oswald 300 · 18 / 1.33	Quality Assurance
p, li · --font-16 DM Sans 400 · 16 / 1.66 · 30 below	The Internal Quality Assurance Cell publishes its annual reports, minutes and best-practice records here for students, faculty and visiting reviewers.

PATTERNS

03 · FOUNDATIONS

Layout and tokens

Everything is sized in rem. The root font size follows the viewport, so the whole page scales as one piece. Values here are shown in px at the 1920px design width, where 1rem is 10px.

1rem = 10px

`html { font-size: min(0.52083vw, 10px) }`

At 1920px wide and above. Below that it shrinks in step with the viewport.

Mobile base

`@media (max-width: 767px) { min(2.66667vw, 10px) }`

On phones the scale resets so 1rem is 10px at a 375px screen.

Section cap

`section { max-width: 2545px; margin-inline: auto }`

Content never stretches past 2545px on ultra-wide screens.

CONTAINERS AT A 1920PX VIEWPORT

Containers carry 15px of side padding. Bars are drawn at 58% of true size.

SPACING IN USE

4px	Gap between footer links (0.4rem)
10px	Header button gap (1rem)
20px	Tile grid gap, quick-link gap (2rem)
30px	Paragraph spacing, tile padding (3rem)
50px	.spacer between components (5rem)
70px	Footer quick-link block (7rem)
150px	Section vertical padding (15rem)

BREAKPOINTS

sm	576px
md	768px
lg	992px
xl	1200px
xxl	1400px
Active in site CSS	max 767px

The 12-column grid, gutters and d-*, mx-*, px-* helpers follow the same five widths.

04 · COMPONENTS

Buttons and controls

Four button types, all with 5px corners except the arrow. Blue is the resting state, amber is the hover state, and every change eases over half a second.

Primary

`.theme_btn`

Download report

Default

Download report

Hover

53px tall, 40px side padding, DM Sans 600 at 16px. Use for the single main action in a content block.

Header call to action

`.apply_btn`

Apply Now

Default

Uses the Action gradient, bold white text, 14px by 40px padding. One per page, in the header. No hover state is defined in the source CSS.

Icon buttons

`.info_btn · .hamb_btn`

53 by 53px white squares with 5px corners and a 28px icon. The menu button has no fill and sits 20px further right. Every icon-only control needs an aria-label.

Arrow button

`.arrow_btn`

Default

Hover

29px square, the only control with square corners and a shadow. On hover the fill turns Blue and the arrow inverts to white. At 29px it falls under the 44px touch minimum, so extend its hit area on mobile.

Navigation and text links

`.site_menu a · footer a`

PROGRAMS ACADEMICS

Scholarship ERP Login

Main nav is uppercase DM Sans 500 at 21px with 2.1px tracking. Footer links are white 14px, bold for quick links. Links carry no underline.

Focus, recommended

`not in source`

On light surface

On dark surface

The stylesheet removes outlines globally and defines no focus ring. Add a 3px ring with 3px offset: Amber around Blue controls, Sky on the dark footer.

Table and document tiles

The two patterns that carry IQAC records: a data table for structured lists and a tile grid for downloadable documents. Both sit on white against the grey page.

DATA TABLE

Sr. No.	Title of the innovation	Name of the awarding agency with contact details	Name of the awardee
1	[Innovation title]	[Agency name, address, phone]	[Awardee name]
2	[Innovation title]	[Agency name, address, phone]	[Awardee name]
3	[Innovation title]	[Agency name, address, phone]	[Awardee name]
4	[Innovation title]	[Agency name, address, phone]	[Awardee name]

Wrap in `.table-responsive` so wide tables scroll sideways on phones. Header cells are Blue with white DM Sans 600. Body cells use `#212121` at 16px with 15px by 20px padding, separated by 1px lines at 11% black. Column minimum is 100px, last column 250px.

DOCUMENT TILES · ONE COLUMN

Minutes of the IQAC meeting

Action taken report

Annual quality assurance report

DOCUMENT TILES · TWO COLUMNS

2021–22

2022–23

2023–24

2024–25 (hover)

Anatomy

White box with 30px padding. Label at left in DM Sans 500, 25px document icon at right, 20px gap between. A 50px by 1px Blue rule sits on the bottom edge, 20px in from the left.

Behaviour

The whole tile is one link stretched over the box, with the visible word View hidden. Hover turns the label Blue over half a second. Opens in a new tab with rel noopener.

Grids

One column with a 20px gap for long titles, two columns with 20px by 30px gaps for short labels such as years. The two-column grid drops to one column on phones, and the icon shrinks to 15px.

Page anatomy

How the pieces stack on an inner content page such as an IQAC record. Drawn at 40% of true size; every gap between blocks is the same 50px spacer.

1 Header

Sticky, Page grey, two-color top bar. See board 07.

2 Headings

One h1 per page in Oswald 72. Sub-headings step down h2 42, h3 30, h4 24 with a 50px spacer between each.

3 Intro copy

DM Sans 16 on the Page grey, black text, 30px between paragraphs.

4 Data table

Full container width inside a scroll wrapper. See board 05.

5 Document tiles

One column for long titles, two columns for short labels. Never mix both in the same list.

6 Closing action

A single Primary button, left aligned, as the last block before the footer.

7 Footer

Gradient base with link columns and contact. See board 08.

Rhythm

Content sits in the 1450px container. The section has 150px of padding above and below. Blocks inside it are separated by one 50px spacer, nothing more and nothing less.

07 · COMPONENTS

Header

Shown at true size on a 1920px screen. It sticks to the top of the page on the Page grey, topped by a 5px Amber and Blue bar.

Structure

Full-width row with 55px side padding. Logo on the left, navigation and action cluster on the right, space-between, centred vertically. Sticky, layer 1090, color change eases over 0.5s.

Height

About 144px. It comes from the menu items, which carry 60px above and 60px below the 24px line. The logo and buttons center on that height.

Navigation

Five links, DM Sans 500, 21px, uppercase, 2.1px tracking, black, 50px apart. Menu and button cluster are also 50px apart; buttons sit 10px apart, with the menu icon 20px further out.

Watch out

The row is close to full at 1920px, and the source has a commented-out rule that tightens gaps to 30px. Below about 1366px the five links need to move behind the menu button.

EMBEDDED MAP · 10PX RADIUS

08 · COMPONENTS

Footer

Shown at true size on a 1920px screen. A dark-to-blue gradient holds five link columns, a quick-link row and a contact column with a map.

Structure

Inside the 1450px container, a two-part grid: flexible link area and a 350px contact column. The contact column is set off by a 1px `#6B90BD` line and 50px of left padding.

Link columns

Five columns at 210, 250, 170, 160 and 150px with 30px gaps, 50px from the top. Heading is DM Sans 700 at 14px, 30px above a list of 14px regular links. The last column's links are bold.

Quick links

One bold row, 20px apart, with 70px above and 130px below to give the footer a deep base. All text is white.

Contrast

White passes on every part of the gradient. The Phone and Email labels use Grey 9A, which lands on the blue end at about 3.5:1, under the 4.5:1 target for small text. Use white or a lighter grey.
